Dr. Grace Szeto has been teaching musculoskeletal physiotherapy and ergonomics for over 10 years. She obtained her PhD from the School of Physiotherapy, Curtin University of Technology, Western Australia in 2003. Her PhD thesis was awarded the David Ferguson Award for the Best Post-graduate thesis by the Australian Ergonomics Society. Her research interest is on work-related musculoskeletal disorders in different occupational groups. She has recently conducted two major research projects involving ergonomic assessment and interventions for surgeons and community nurses. She has published many papers in international journals such as Journal of Electromyography and Kinesiology, European Journal of Applied Physiology, Journal of Occupational Rehabilitation, and Australian Journal of Physiotherapy.

Dr Szeto is currently the chairperson of the OSH & Rehabilitation Specialty Group of the Hong Kong Physiotherapy Association, and has been actively promoting the concepts of good ergonomic practices related to healthcare and office workers in Hong Kong.
